*(Our clients include some of the top recruitment agencies in the UK!)*

Worlds 1st online Copy Typing and Digital \*Audio Typing Examination website of its kind. Certification guaranteed! User gets to choose best of 3 results to add to professional certificate. BS EN ISO 9001 : 2000 certified. We stand by our Quality! For low cost you can take your own online Copy and/or Audio Typing Examination(s) whereby your speed and accuracy can be verified on this site\*. This would be particularly useful for potential employers who can enter your certificate identification code in the box on the site; they will be shown your name, town and results clarifying that the certificate attained is definitely yours; FREE practice attempts of both tests are available, though these would not qualify for "Rapid Tap" nor would you qualify for a certifiable result.

Your certificate will show your gross, or uncorrected, words per minute (WPM), as well as your accuracy percentage. It will also show your name, as given in My User Details. Each certificate has a unique Certificate Identification Code (\*CID). This is shown on the base of the certificate and is valid by visiting our site and entering your CID in the Check Certificate area on the homepage. Name, town and results will be displayed.

NOW AVAILABLE TO CORPORATE CLIENTS, we have opened our doors to companies such as recruitment agencies and recruitment consultants who may wish to verify candidate typing results. A corporate administration area is setup and can be utilised time and time again to create individual tests/batches of candidate test set-ups.
